## CENTRAL BUSINESS COLLEGE

SEDALIA, MO.

—Society was very interesting last Friday night.

—School is still increasing, several new students the past week, all doing good work.

—The pupils of Central Business College listened to a very interesting lecture on glass last Friday morning by Prof. Maney.

—The pupils are almost universally doing first-class work. We have never, since we have been conducting a school, had more industrious pupils than we now have.

## CLASS IN PENMANSHIP.

On the third of June next, 1889, we will commence a class in penmanship to meet from 8 till 9 a. m. every day except Saturdays and Sundays for four weeks, \$1.50 for twenty lessons. We shall have three first-class teachers, penmen, in charge of this class, giving lectures on the subject and giving individual instruction. Never since we have been conducting a school, have we been so well prepared to give good, thorough instruction in this subject as at present. It matters not how large the class is, we shall be able to give each pupil all the individual instruction that he needs or wants.

—This class will meet from 8 till 9 a. m., remember, when it is cool and pleasant, and will close the 28 of June, so as to give every one time to get his fire crackers and get ready for the fourth of July. We are confident that those attending this class will be perfectly satisfied and highly benefited.

## For Sale.

One good three-inch Bain wagon, narrow gauge, suitable and equipped with extension side-boards for camping purposes, painted and covered in first class shape, all ready to hitch to. Inquire corner Sixth and Monticau streets, Sedalia. 5-21w3t

T. GRANGER STEWART, M. D. F. R. S. E., Ordinary Physician to H. M., the Queen, in Scotland, Professor of Practice of Physic in the University of Edinburgh, writes: "The arteries are sclerosed and atheromatous in the advanced stages of the inflammatory and in the cirrhotic but not so small in the waxy disease. In that affection the small vessels in other parts are frequently the seat of waxy degeneration". From this it will be seen that in three forms of kidney disease classed as Bright's disease, the arteries suffer changes, and it matters not whether they undergo sclerotic, atheromatous or waxy change, they are so weakened as to endanger rupture under any increased pressure. This explains the frequency of apoplexy and paralysis, and as clearly demonstrated that the only preventive of these disastrous ruptures of the blood vessels is the timely use of Warner's Safe Cure to keep the kidneys in a healthy condition.

## Reform School Kids.

## THE WHEEL.

A Condensed Report of Recent Meeting of the Wheelers at Lamonte.

At the meeting of the Pettis county Wheel held at Lamonte last week the following resolution was adopted.

"Resolved that the Pettis county wheel condemn and protests against the unjust exactions of the binding twine trust, but do not think it wise to declare a boycott upon the use of twine."

A motion was carried to the effect that all orders for binding twine be made through the county agent which orders must be filed with him before the last Saturday in May.

The executive committee reported that a lot in Sedalia had been donated to the order on which to erect an elevator and recommended that the Wheelers, by contributions of money and produce assist in the erection of the building, each contributor to receive exchange checks for their several amounts. The county agent was instructed to send circulars to each Wheel explaining the action of the county wheel and soliciting aid for that purpose.

It was also announced that a building has been secured for the transaction of the business of the agency at 1010 East Third street, Sedalia, where the Wheelers can bring their farm products for storage and sale and order such goods as they may wish of the state agency.

That some products have already been received and are being sold at the usual market price.

That arrangements have been made with the labor organizations of Sedalia and especially with the Labor Exchange, by which a more direct exchange between the farmers and working men is effected.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will by its own action, reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past few years obliges us to admit that only one remedy has completely met these conditions, and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms quickly yield to it.

## Killed by Lightning.

The Chetopa Advance contains the following account of the death of Mrs. Sarah Studley sister of Mr. E. L. Collins of this city:

Last Sunday Mrs. Sarah Studley, a widow, living six miles west of Chetopa, while standing in the door of her home was struck by lightning during the storm about noon, and died in a few minutes. A daughter standing near by was injured, but her little boy who held her by the hand was

badly stunned. The funeral services, conducted by Rev. C. T. Durboraw, were held at the Lake creek church Monday afternoon, and she was buried in the cemetery at said church. Mrs. Studley leaves five children, two of whom are married. One daughter Mr. Frank Neidigh, is a resident of Chetopa.
